

HVOR STORT TEPPE TRENGER DU I STUEN?

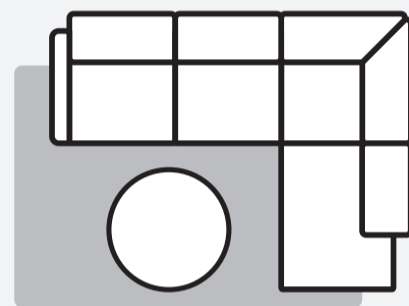

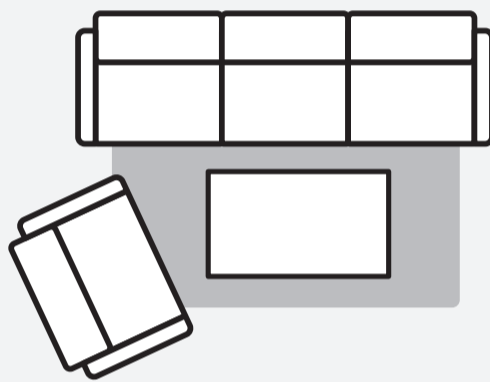

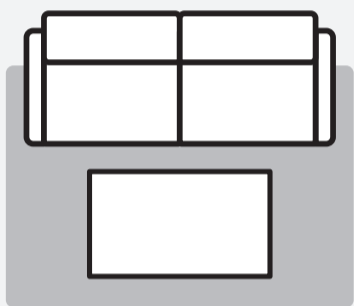

133x195cm

Et lite teppe, best egnet for små rom med en liten 2-seter eller 1-2 lenestoler med et sidebord.

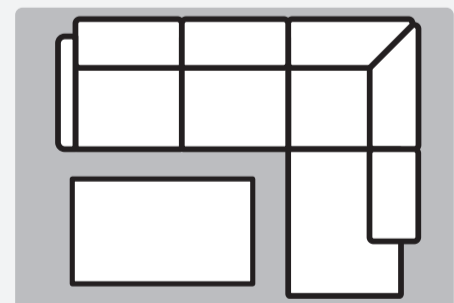

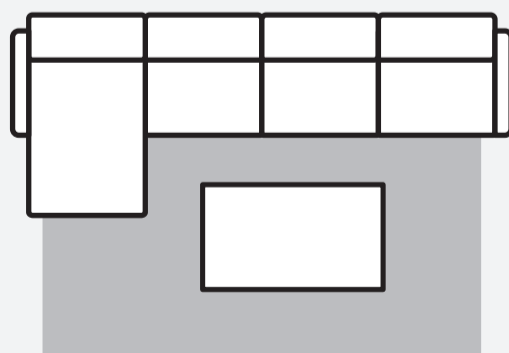

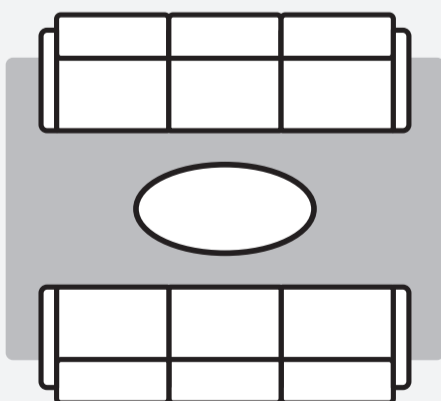

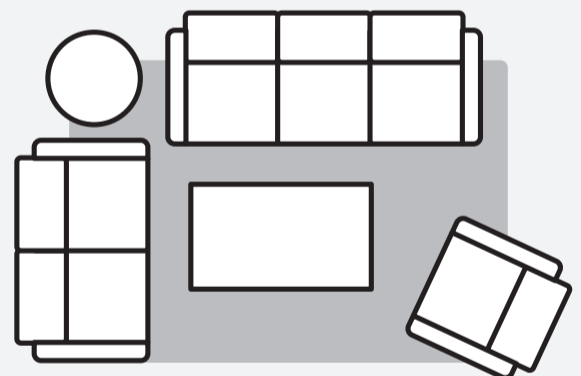

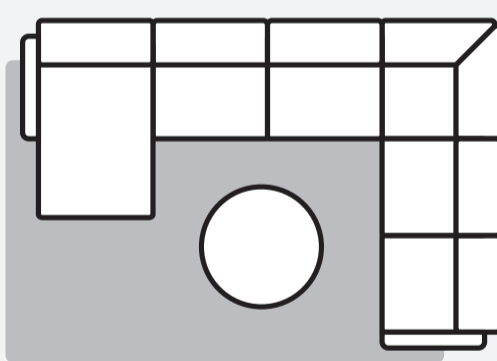

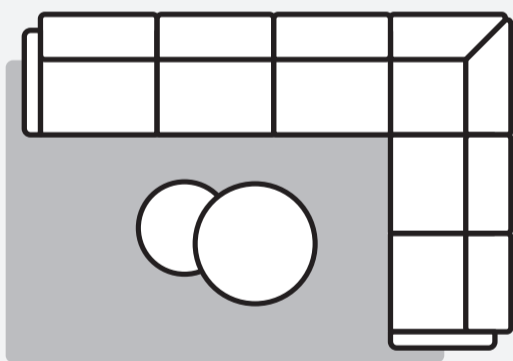

Ø:160 cm

Et rundt teppe kan mykne opp linjene i et firkantet rom. Fint til lesestolen eller en liten sofa.

160x230cm

En populær teppestørrelse, passende for middels store rom med 1 sofa, eller en liten hjørnesofa. Har du 3+2-seter, anbefaler vi å velge en størrelse større enn denne.

200x290cm

Optimalt bør teppet være litt bredere enn sofaen, så du trenger ikke være redd for å velge et stort teppe. Har du en større modulsofa eller en sofagruppe, er 200x290cm ofte den beste størrelsen. Store tepper skaper også en ekstra lun og avslappende loungestemning i stuen.
